

It's NOVEMBER (already)! SHOPPING, COOKING, VISITORS, TRAVELING...

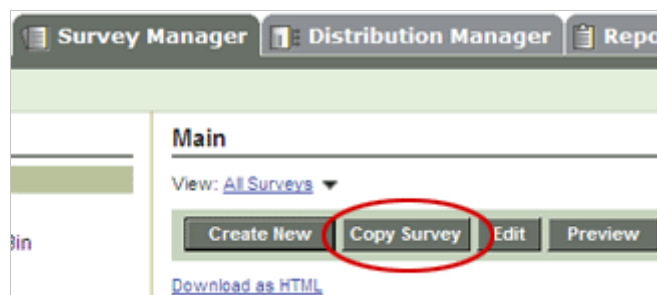

With so much to do and so little time, you may find yourself stressed and overwhelmed. **FEAR NOT!** Zarca has some excellent solutions to help save time in one aspect of your life: **CONDUCTING SURVEYS.**

Take note of the following survey (and life) tips.

Tip 1: Don't bake from scratch.

Copy existing surveys and make modifications.

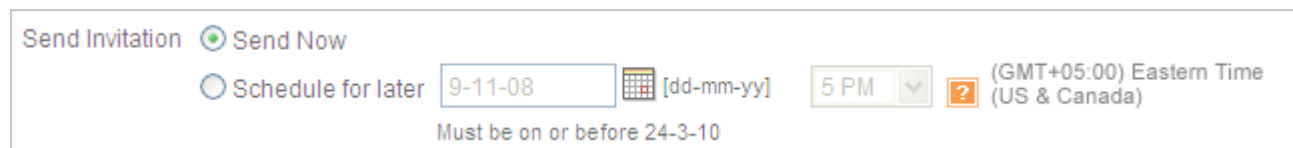

Tip 2: Save last year's decorations.

Save survey colors and logo as a template. In future surveys, simply access the template instead of making all color/logo selections repeatedly.

Tip 3: Plan ahead.

Schedule invitations and reminders.

Tip 4: Run all errands at once.

Instead of heading to the Report Manager tab repeatedly to generate up-to-date reports, send yourself and your colleagues a report link. Simply access the link and save time.
