Arabic Text Support Download

When would I receive this download Message? Windows 98 users attempting to participate in a Zarca survey may be asked to download "Arabic Text Support." This is a non- critical, text support download, used to properly display characters and images. The message you may receive is automatically generated by Windows to update Text settings.

What do I do?
Download the text support, and update windows. This enables Windows 98 users to update their text settings and view the downloaded Arabic text. Multi-lingual surveys may require a similar download.

1. Select download Arabic Text Support
2. Install Arabic Text Support
