How to insert graphic or image into the header or footer of your Zarca survey?

When would you need this feature? A graphic/image allows you to add various images to your survey's header or footer. You can place an image or graphic into the header or footer of your survey using a non-Zarca related site to upload the image or graphic to get a URL.

How to use this feature? At the appropriate place (header or footer text fields), insert the following code. Apply the modifications from each step below, from the text in red, to fit your image or graphic URL code below:

Example: <IMG src="http://img114.imageshack.us/img114/4817/zarcalogodz9.jpg">

1. In the header or footer field, on the survey settings page, type the first portion of the code:
<center><IMG src="</center>

2. Using the site you choose to upload your graphic or image, you will enter the URL for the image or graphic following the above code:

<center><IMG src="http://img114.imageshack.us/img114/4817/zarcalogodz9.jpg</center>

3. After entering in the URL, you will need to complete the final part of the code, which is to close the code:
<IMG src="http://img114.imageshack.us/img114/4817/zarcalogodz9.jpg">
4. Click apply at the bottom of the survey settings page.

Example:
- In the Header is the code before applying.

- In the Footer is after the image ahs been applied image.

Some sites you can use to upload images or graphics:
1. www.Imagehosting.com
2. www.Imageshack.us
3. www.Uploadyourimage.com

**Please note that Zarca is not affiliated with any of the above websites, and can not be held responsible for any action you decide to partake with those websites. Please be cautious if the site you are using to upload your graphic or image is not affiliated to your

organization. If an image or graphic is critical, and you decide to use a public site to upload your image or graphic, we advise you to exercise caution with what image or graphic you decide to upload.
